### Comments taken from Visitors' Book

*Note: Not everyone signs the Visitors' Book. When they do, their comments may relate to the whole museum or to a display within it. It's therefore difficult to tell whether comments like 'Excellent', 'Very interesting', 'Fascinating' or 'Very informative' relate to all or part of the experience. The list below relates to entries which **specifically** singled out the mining exhibition. If the written comment doesn't mention the mining exhibition, the visitor concerned is known to have expressed appreciation of it to a member of the museum's staff.*
