

SOUTH GLOUCESTERSHIRE MINES RESEARCH GROUP
CODE OF GOOD PRACTICE 2 (CGP2)
ACTIVITIES

This revised policy was reviewed and agreed at the SGMRG Committee on 20 August 2018. Latest review was on 9 May 2022.

The SGMRG will work within the National Association of Mining History Organisations Guidelines and will expect all members to comply when acting for or within the Group.

When carrying out works or visits above or below ground we will:

- identify good practice – using the NAMHO and other guidelines
- assess the extent and nature of any relevant risks
- identify appropriate measures to manage those risks
- be clear to all involved the nature of any risk and their informed acceptance of risk.
